

I am writing to express a yes vote on SB184 and HB5262 - on voting rights and access to polls for all people. This cannot be done without mail-in voting. This is the system that works, as testified by our Washington state officials in charge of elections here.

The laws we pass and the existing laws will only be obeyed if the people agree to them. People only see laws as legitimate if they have an opportunity to be part of the process. Keep Connecticut democracy intact and make attempts to get the huge turnouts you know can happen with access to the polls!

Thank you for allowing me to comment. We do have more steps to go on making voting even more fair and open to all, but this is a big one!
